

ASAM LEVEL OF CARE CERTIFICATION RESOURCES

ASAM Level of Care Certification is the first program of its kind to independently assess and verify a treatment program's ability to deliver services consistent with the levels of care described in *The ASAM Criteria*. It currently covers adult residential and inpatient treatment programs at levels of care 3.1, 3.5 and 3.7.

The certification helps to accurately differentiate between levels of care, highlight treatment programs that have evidence-based policies and procedures and

support adoption of standards of care to improve the quality of addiction treatment.

ASAM Level of Care certification demonstrates a program's capacity to deliver a specific level of care, thereby differentiating between the multiple levels of care available for addiction treatment. To learn more about certification, or find certified programs near you, visit www.asam.org/asam-criteria/level-of-care-certification.

The Change Companies® is proud to partner with ASAM in providing high-quality materials to help organizations and teams prepare for ASAM Level of Care certification.

The ASAM Level of Care Certification Manual

The ASAM Level of Care Certification Manual describes the level of care standards derived from *The ASAM Criteria*, the rating elements that will be assessed during the certification survey and the policies, procedures and systems a program should have in place to meet the standards.

The ASAM Level of Care Certification Preparation Workbook

The ASAM Level of Care Certification Preparation Workbook outlines the rating elements that will be assessed by certification surveyors and provides a template for programs to conduct self-assessments to identify strengths and areas for improvement.

The ASAM Criteria

The ASAM Criteria is the authoritative source of standards for multidimensional assessment, patient placement and level of care service characteristics in addiction treatment.
