TRAUMA IN LIFE

Developed in conjunction with the Federal Bureau of Prisons - to help women identify and cope with trauma and its aftermath

Understanding Traumatic Experiences - Building Resiliency - Breaking the Cycle

Seventy percent of adults have experienced a traumatic event at least once in their lifetimes, and women and children are more likely to develop long-term difficulties in the aftermath of a trauma. Chances are there is a significant population of women in your facility who will benefit from the Trauma in Life Journal. This Journal helps women articulate what role trauma has played in their lives. Women develop coping skills to strengthen their resilience and avoid continuing the cycle of victimization in their own lives. Resources for more help and recommended readings are offered.
