Forward Thinking
Interactive Journaling® Series

This cognitive-behavioral series uses evidence-based strategies to assist youth involved in the criminal justice system in making positive changes to their thoughts, feelings and behaviors. Applying the information presented in the Interactive Journals to their own lives helps participants achieve their goals of responsible living.
The Forward Thinking Series provides high-risk youth with an opportunity to identify and target risk/need areas. This series focuses not only on education, but also on guiding juvenile high-risk populations in taking ownership of the choices and actions that lead to positive change.

Criminogenic Need Areas:
- Handling Difficult Feelings
- Relationships and Communication
- Victim Awareness
- Substance Using Behaviors
- Family

The Forward Thinking Interactive Journaling® Series was developed in collaboration with the California Department of Corrections and Rehabilitation, Division of Juvenile Justice’s Interactive Journaling® Charter.

Forward Thinking Fidelity Tools

Pre- and post-tests are available for each Journal. Two administration methods are offered: the Facilitator Assessment of the Participant is completed by an observing supervisor, facilitator or collaboratively by the participant and facilitator; the Participant Self-evaluation is completed by the participant. Both instruments measure changes in participants’ attitudes, knowledge and skills in specific topic areas. Facilitator evaluations are also available. They can be completed by a participant, supervisor and/or facilitator. They measure adherence to the rules of Interactive Journaling® and fidelity to program delivery.
